

California Proposition 65 Compliance Statement

In 2016, the State of California amended its Safe Drinking Water and Toxic Enforcement Act of 1986, known as “Proposition 65 or Prop 65.” Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that are known to cause cancer, birth defects or other reproductive harm. The State of California Office of Environmental Health Hazard Assessment (OEHHA) on August 31, 2016, adopted certain amendments to Article 6, Clear and Reasonable Warnings for California Proposition 65 which become effective on August 30, 2018.

Prop 65 warning requirements are dependent on the anticipated level of exposure to the Prop 65 chemicals, which result from the foreseeable uses of a product. The warning requirements will only apply if the foreseeable and intended uses of a product containing these chemicals are likely to result in exposures that exceed the “significant risk” or “observable effect” levels. A determination of “significant risk” or “observable effect” can only be made with full knowledge of the end uses and applications of the products.

The California Attorney General’s Office has stated that the following warnings, if properly displayed at the retail outlet, satisfies the clear and reasonable warning requirement of the statute. Provided below are the warnings with a symbol placed on packaging to identify products that have a chemical in the Prop 65 list.

For **Carcinogens:**

 **WARNING:** This product contains a chemical known to the State of California to cause cancer.

For **Reproductive Toxins:**

 **WARNING:** This product contains a chemical known to the State of California to cause birth defects or other reproductive harm.

For **Carcinogens and/or Reproductive Toxins:**

 **WARNING:** This product contains a chemical known to the State of California to cause cancer and birth defects or other reproductive harm.

 **WARNING:** This product contains a chemical known to the State of California to cause cancer and another chemical known to the State of California to cause birth defects or other reproductive harm.

California has published an expanded list of more than 900 chemicals covered by Prop 65, to review this list go to: www.p65warnings.ca.gov/chemicals

For more information about Prop 65, go to: www.p65warnings.ca.gov

This letter is to inform you that RPP Products, Inc. will be making the necessary changes on our product labels to comply with these new labeling requirements. Efforts like Proposition 65 are incredibly important to our company and raising our customers’ awareness is critical.

We thank you for your business.
